

ISLANDS COLLECTION

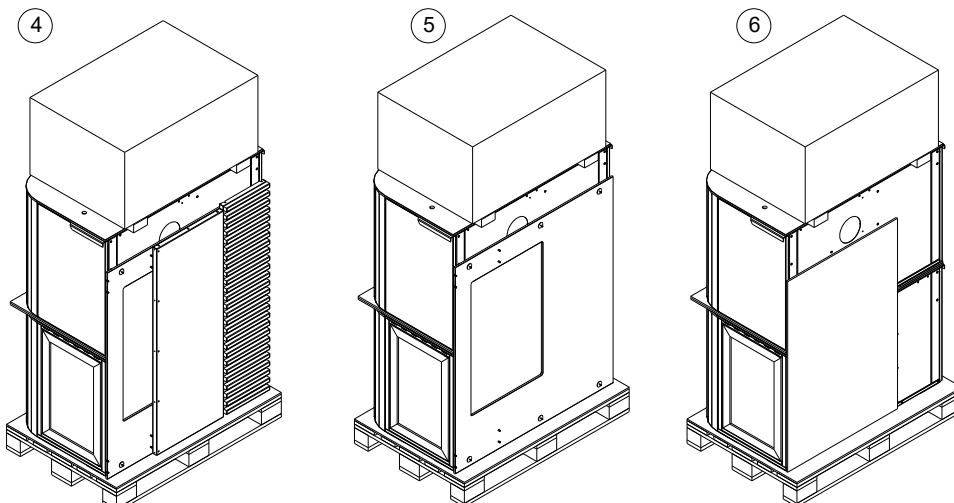

ISLA

Read the included documentation prior to unpacking the product.

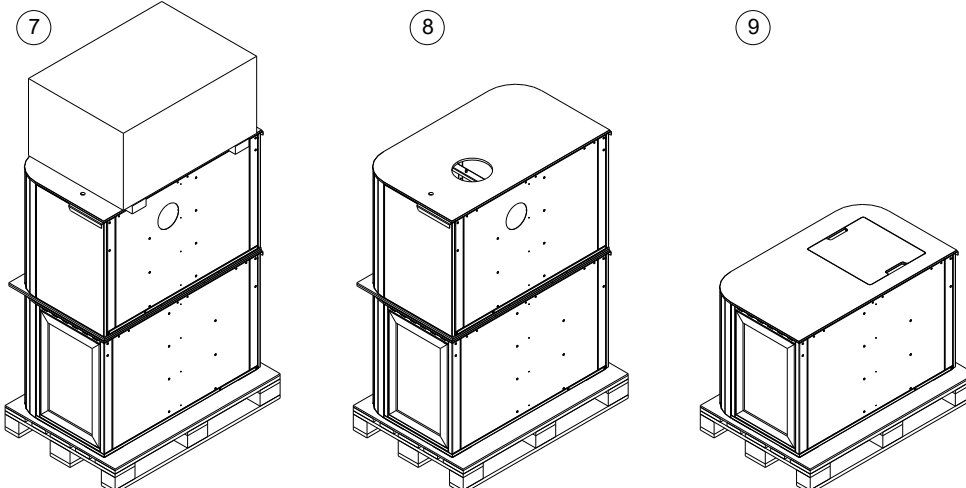

A minimum of two people is required for safe assembly

1. Unscrew the wooden slats securing the product.
2. Cut off the securing tapes and remove the foam padding, cardboard corners.
Caution! Take particular care when cutting the tape to prevent the components from falling out and becoming damaged.
3. Gently cut off the horizontal securing tape holding the metal elements. Set aside first layer whilst the other person holding the remaining components on the pallet.

4. Gently set aside the next metal component and the slatted shelf, whilst holding the stone worktop that remains on the pallet.
5. **Set the stone worktop aside – take care not to damage it when putting it down.**
6. Remove the remaining cardboard spacers.

7. Remove the cardboard box containing the grill and the cardboard divider
8. Remove the burner module and set it aside for later assembly.
9. Remove the remaining cardboard dividers and the final module containing the fridge.
